PERSONAL PROFILE

I'm a very creative individual and love to tinker with tech-related things.

Down to earth, and can often be found playing video games, watching movies or rocking the drums in my free time.

PROFESSIONAL PROFILE

I am a 23 year old hybrid designer/developer, currently employed as the lead Front-end Developer at Smartt.

Due to my passion for web design and development, I am seeking to expand into the territory of a full-stack developer.

SKILL SET

LANGUAGES

HTML5, CSS3, JavaScript/jQuery, Twig and PHP

WEB FRAMEWORKS

React, Gatsby, Tailwind CSS, Bootstrap

CMS

WordPress, Drupal 7/8, Shopify

WORK EXPERIENCE

Smartt.com

Primary Front-end Developer & Graphic Designer

2 Years+

Mar 2018 – Present

Custom designed and developed 3-4 websites a month as per client requirements

Managed all security updates, breaches and website restoration

Acted as lead developer in determining technical approach for more complex projects

Worked with the marketing team to optimize website and SEO requirements

Coached new and junior developers on design best practices, technical problem solving and efficient workflow management.

ACHIEVEMENTS

Designed & Developed Canada's first e-sports gaming stadium website: **The Gaming Stadium**, while coordinating directly with the VP of Operations.

Proposed a new **Mink Chocolates** website that resulted in an increase of average cart size from 1 item to 3 items.

Piloted new product launches with the executive team of **RADISYS** - a global industry leader in the telecom space

Developed in-house themes (Wordpress + Drupal) using Gulp and Webpack that are now used as the baseline for all new projects.

EDUCATION

British Columbia Institute of Technology

Certificate - Technical Web Designer Program

6 Months

Sep 2016 - March 2017

604 - 996 - 1336
